The Andependent.

PERSONAL PARTY WORKSHAY MORNING AT skaloust, Jefferson County, Kungas

Local Department.

JOHN W. DAY, Local Editor.

RETURNED .- Last Friday our friend ACEXANDER BATNE, who passed through here a few weeks ago on his way to Washington City, returned, having transacted the business of his commis sim. He went there as agent for the ders on the Kaw Half Breed Lands in this County, to secure to them, under a recent act of Congress, a title to these lands. We did not have an opportunity to converse with Mr Barne on this subject, but believe he succeeded in obtaining the object of his visit. We hope this is the rase, for no men in was have been harrassed more about a title to their farms than have the "squatters" on these lands. They were first induced to settle there by the Pancy Goods, Yankee Notions, Books, a leise of Government officials, la linn arente, &c. Then by agents of the Government were driven off, their ouses burn-d or torn down and their crops destroyed. But they came back. and many of them have opened good farms, and made other permanent improvements. These lands are among the most valuable in he Territory; and we wish the men who have encountered the schemes of designing men, and buffled all their swindling plots; the men who have braved the dangers and prirations of the first pioneers of Kausas; -we wish them to have a clear and indisputable title from Government, to the lands they have subdeed, and made one of the richest spots in Kansas, for and honey." Too much credit cannot be ascribed to Mr. BATER for the active interest he has always manifested in the welfare of the county, and particularly of the cuizens on the Kaw Half Breed

Houses Stolen .- On the night of the 9th inst two hores were stolen from this place; one belonging to Rev. Nelson Alvord the lother to Mr. 6. same day, bu he could not be found.

It is high time such depredators were brought to justice and we sincerely by it are left as healthy as if they had never had the disease. hope theys will be apprehended and

Almost every man who had previously taken a claim on that land went out to renew it, and make additional improvements; while very many who had never themselves of the protection this remedy afbefore ricked another. before risked anything on ancertainties, their action can rarely withstand or evade them. Their penetrating properties search, and cleaned and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is lowed down with the perfectly legitamate (?)), and health or energy restored by a remedy at once a simple and inviting.

AYER'S

to "blossom as the rose." We be Ague Cure, lieve that portion of our county will be PER THE SPEEDY CORE OF

even now it almost "flows with milk Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases origifor the whole class of diseases origi-nating in biliary derangement, caused by the Malaria of miasmatic countries. No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will endicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quan-tity.

tity.

That which protects from or prevents this McCarty. Suspicion rests upon two disorder must be of immense service in the communities where it prevents is better than cure, for the patient escapes the shirts of town the evening before, one of whom is well known to many of our citizens as being a fugitive from Jus ice under the laws of Iowa. Men went in pursuit the next day, but up to this time cothing definite has been reard of their maneuvers, except that they were seen with the horses the next morning near Archison. It is said that one of the maneuvers, except that they were seen with the horses the next morning near Archison. It is said that one of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Faven and Acce prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quimine or mineral, consequently it pro-

punished for their misdes.

Exercises T—Monilay of this work was a day of excitement among the citizens of town and conferry, caused by a sumer that the Leavenworth and Pawnee Railroad Campany had only purchased a portion of the Deleware reservation, and that the residue of the land would be sold subject to the pre-emption laws of the United States.

Almost every man was land previously Fever and Ague is not alone the consequence

Fever and Ague,

from which mankind sufer over a large part of the globe, is the consequence of a diseased notion in the system, induced by the poisonous minus of agetable decay. This exhalation is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth surface, and the virus is taken with it through the lungs into the blood. There it acts as an urntating poison on the internal viscers and excreting organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the tile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The sphern, the kidneys, and the summeth sympathize with the liver, and become disordered also. Finally, the instinct of our organism, as if in an attempt to expel the motions influsion, concentrates the whole blood of the body in the internal excretories to force them to east it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the Central Rot in this effect it fails. out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the Catta. But in this effort it fails. Then the Payan follows, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expel the irritating poison through that other great excretory—the skin. In this also it fails, and the system abandons the attempt exhausted, and waits for the recovery of strength to repeat the hopeless effort another day. These are the fits or paroxysms of Fayan and Agua. Such constitutional disorder will of course undermine the health if it is not removed.

We have labored to find, and have found, an antidote,

Ayer's Ague Cure. which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the blood. As it should, so it does cure this afflicting disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health although exposed to the disease. Consequently it not only cures, but protects from the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked Agne, Periodical Headache, or Bilious Headache, Bilious Fevers, Neuralgia, Rheomatism, Gout, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitations, Painful Affections of the Spicen, Hysterice, Colie, Paralysis, and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "Aoux Cunx" removes the cause of these decargements, and cures the disease.

removes the cause of these derangements, and curse the disease.

This it accomplishes by stimulating the excretories to expol the virus from the system; and these organs by degrees become habited to do this their office of their own accord. Hence arises what we term acclingtation. Time may accomplish the same end, but aften life is not long enough, or is sacrificed in the attempt, while this "AGUE CURE" dues it at once, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of diseases which are caused by the minematic infection, than any other which has been discovered; and it has still another important adventage to the public, which is, that it is cheap as well as good.
